SUMMARY

UI/UX Developer with 3+ years of experience creating responsive, user-centric interfaces developed with **Angular**, **React**, and **modern front-end frameworks**. Adept at translating design concepts into interactive components, optimizing web performance, and delivering seamless digital experiences across devices. Experienced in working within **agile teams**, collaborating closely with product owners, designers, and backend developers to deliver functional, accessible, and visually consistent interfaces.

EXPERIENCE

Software Engineer
Customer Analytics

📅 04/2023 - Present 📍 Chennai, India

- Developed and maintained UI components using **Angular** and **React** with **TypeScript**, ensuring performance and accessibility.
- Optimized performance and reduced page load time across modules through effective UI refinements and reusable components.
- Implemented responsive layouts using **Tailwind** CSS and SCSS, delivering seamless cross-device compatibility.
- Enhanced UX by collaborating with cross-functional teams and resolving layout and design inconsistencies.

Software Engineer Trainee
Customer Analytics

📅 08/2022 - 03/2024 📍 Chennai, India

- Developed scalable UI components using **Angular**, **HTML5**, **CSS3**, and **JavaScript**, ensuring cross-platform responsiveness, performance optimization, and seamless user interaction across devices.
- Focused on component reusability and modular architecture to enhance scalability and reduce development time.

Software Trainee
FirstMeridian

📅 09/2021 - 06/2022 📍 Chennai, India

- Built basic UI elements using **HTML, CSS, JavaScript, and Angular/React** under mentorship.
- Created wireframes and low-fidelity prototypes in **Figma**, supporting user flow planning and interface layout.
- Worked on layout bug fixes, UI consistency checks, and basic component reusability.

EDUCATION

B.E in Electronics and Communication & Engineering
Saveetha Engineering College

📅 06/2017 - 05/2021 📍 Chennai

SKILLS

Angular   React   HTML   CSS

SCSS   JavaScript   Typescript

Angular Material   Bootstrap

Next.js   Figma   Interface Design

Tailwind   GSAP

PROJECTS

Codaworx

📅 01/2024 - Present

RFP software and services connects organizations and artists for public art projects.

- Built high-performance, responsive UIs using **Angular, HTML5, CSS3, TypeScript**, maintaining consistent UX across platforms.
- Focused on responsive design, dynamic data binding, and page performance optimization

CA - HomePage

📅 03/2023 - Present

Internal project focusing on customer analytics

- Developed internal analytics dashboard using **React, Next.js, Tailwind CSS, TypeScript**, focusing on performance optimization and interactive data visualizations.
- Ensured design alignment and consistency across components and devices.

theHub - TSI

📅 08/2022 - 12/2023

CRM Application for TSI Employees

- Transformed **Figma** mockups into dynamic Angular components with **HTML5, SCSS, Angular**, delivering responsive UI for a CRM application.
- Delivered pixel-perfect UI for TSI's **CRM application** with responsive design and smooth interactivity.
